Travel

England, Spain, Italy language training

Maldives islands, Greece, Dubai..

Computer skills

bases of creation of Internet website

good command of pack office (Word, Excel...)

Languages

Arabic Mother tongue

French Fluent

English advanced

› TOEIC : 865/990

Work experience

Since October 2019

PhD student

[Institut Laue-Langevin](#) Grenoble, France

- Production and purification of proteins
- Phase diagrams from visual observations, by variation of the composition and temperature
- Measure and analysis of Dynamic Light Scattering, Static Light Scattering and Small Angle Neutron Scattering

From April 2018 to August 2018

Trainee in biochemistry , biophysics

[Trainee : How coacervation of two viral proteins drives the formation of membrane-less compartements](#) Grenoble, France

- Protein expression and purification
- Use of different technics : Static Light Scattering , Small Angle neutron / X ray Scattering ...

From April 2018 to August 2018

Trainee in protein remodeling and structural bioinformatics

[Thorax insitute](#) Nantes, France

- Protein modeling
- Cell line establishment
- Molecular Screening (Patch clamp technique)

Education

Since October 2019

1 st year PhD Student

[Institut Laue-Langevin](#) Grenoble, France

From 2018 to 2019

Master degree in drug sciences : structural biochemistry

[Faculty of Pharmacy, University of Montpellier](#) Montpellier, France

From 2016 to 2017

3rd year of Bachelor's degree in biochemistry

[Faculty of science, University of Montpellier](#) Montpellier, France

Skills

Science

- Biochemistry and biophysics technics : chromatography, electrophoresis, spectroscopy ...
- Microbiology : membran filtration, microbiological culture, cervical smear/ Pap test...

interets

- foretaste for the discovery of the research profession (voluntary visit of CNRS laboratory / service of biological sciences)
- practice of table-tennis (with competition during 3 years)
