ILL User Club Double authentication – Web browser

To increase the security of our services, a new authentication measure has been put in place when logging into our portal. This is a mandatory procedure and requires an initial setup on your behalf.

If you cannot use your Smartphone

Using a plugin in your web browser (Firefox for example) is possible.

In order to set this up, search for "Authenticator Firefox" on the web.

Aucur votre pr	n compte à afficher. Ajo emier compte maintena savoir plus	Acquisitio utez int. <u>En</u>	Firefox will ask for your authorisation, cick on Authorise.

The plugin is now configured.

You can now obtain your authentication code by clicking on the plugin icon on your web browser.

Beware that the code regenerates regularly (the Attention ce code se renouvelle très régulièrement (the remaining time is shown here)

If you have clicked on 'Autofill' in your settings, you just need to click on the code and it will auto-fill in the necessary box.

Firefox will ask you to authorise the first time you do this, click on 'Authorise'.

The code box will fill in automatically.

Choose a name for this device which will allow you to recognise it.

Connectez-vous.
